cool features. Would definitely buy again.

This product was amazing! My kids absolutely love it and cant get enough of it. My husband bought them a hover board and they really enjoyed that. I was browsing amazon and saw this kart from the same store. I knew I had to surprise them all with it! My husband assembled it quick and he absolutely loved it. The next day the kids tried it and had so much fun. It is much safer to ride and could go on all surfaces. Grass is difficult for adults and that doesn't matter.. It is well built and has a ton of

★★★★★ **Fun Hoover for the family !**

Reviewed in the United States on May 22, 2019

Verified Purchase

The quality is amazing; it feels very sturdy and strong. It holds my weight of 210 pounds with no problem. I also like how the fiber carbon parts makes it feel strong and look sleek as well.

The dual motor is very responsive and powerful, I was amaze how smooth they are making the self-balancing feature. It is extremely helpful to anyone especially for beginners like me and my wife. It was helpful that the maximum speed of 12.0km/h can be adjusted

using the mobile application and the children and adult modes make it versatile for everyone.

★☆☆☆☆ **Buyer Beware!!**

Reviewed in the United States on June 30, 2020

Color: blue-T581*kart | **Verified Purchase**

My son enjoyed this hoverboard on his birthday early May for a full 30 minutes, and although he liked it in that very brief time, it died. After contacting Gryoor, they insisted I contact them directly outside of Amazon. They would replace the motherboard for "free." It arrived at their office on May 22 and I have not heard anything since. Essentially, they stole the \$279 I paid. Shame on them.

★★★★★ **Sturdy Hoverboard and Great Customer Service**

Reviewed in the United States on January 16, 2020

Verified Purchase

I purchased this board for my 11 year old son and he loves it! The lights and wheel illumination are great! He loves that both can be changed through the app as well as play music from a device through the speakers on the board. The motors are more powerful than most hoverboards out there. Construction is solid and balanced.

We needed some help from customer service soon after opening it, so I emailed them. A representative responded very quickly and stayed in touch until we were completely taken care of. I feel like Gyroor went the extra mile. It was really nice! Great company and product.

★★★★★ **great for children,**

Reviewed in the United States on June 4, 2019

Verified Purchase | **Early Reviewer Rewards** (What's this?)

Packaging: very well packaged no dents scratches or marks on the hover board. Foam is placed properly inside the box to protect the board from damage.

Ease of use: This is made for children under 12 in my opinion. It is a little smaller than other boards out there. The wheels are a little smaller than others I have seen. But for my 7 year old daughter it is perfect. My daughter hopped right on the hover board and took off right away, she spins around

★★★★★ 10/10 fun factor, but be careful!

Reviewed in the United States on October 5, 2020

Color: blue-T581 | Verified Purchase

Just got this for our 8yo son. It's the coolest thing he's ever had. Can't comment on longevity of the product, but initial fun rating is a 10/10. Speaker quality is fine. App control with lights and speedometer are fun but not necessary. It's a little too heavy for him to carry safely on his own. Came charged enough to play around with for a couple hours. He's pretty confident on it after just a few days of riding mostly indoors. Stay away from cabinets and trim. Unfinished basements and outside are best to learn to ride it. Adults be careful. This is not a skateboard, scooter, or a Segway. My wife got on, did 4-5 full speed rotations, and got flung off like it was a mechanical bull.
